Awards

India Architecture Awards 2021

We were absolute that our efforts will bear fruits and enhance the comfort of many people. In fact, thinking about how these projects will benefit people was actually the motivation behind our hard work. We made sure that the delivery of standards of quality should be the highest possible. The amount of hard work, skills, time commitment, various challenges and problems arose along the way... which had to be respected.

Moreover, this award will only motivate me to achieve more success in the future.

Quality is never an accident, it is always the result of high intention, sincere effort, intelligent direction and skillful execution; it represents the wise choice of many alternatives. Quality means doing it right when no one is looking. Even though quality cannot be defined, you know what quality is..... & We are trying our best to meet all definition of it by using world's best component for recliner segment.
